

AccuFund Report Writer Training Las Vegas, Nevada—March 2010

These training courses will be run on version 3.09 giving users access to the latest features and functionality!

AccuFund, Inc. is offering expanded training course for users of the AccuFund Accounting Suite. There will be two training classes offered, including

- Report and Forms Designer (2 days)**
 Understanding the Report and columnar report writers. How to get data from the various modules of the system, including working with payroll data.
- Financial Report Writer (2 days)**
 Running and building financial reports, many options for accounting periods, use of classifications when appropriate.

Each class will be geared to end users and will include significant hands-on computer time so that participants become comfortable with the features.

Classes are being held at a computer training center in Las Vegas a short distance from McCarran International Airport.

Cost of Training

Report & Forms Designer - \$845
