Donor Management Software for Your Nonprofit

Management software that allows you to track and monitor your organization's constituent, donation and marketing initiatives is key to your nonprofit's success.

AccuFund CRM is an affordable management software solution designed specifically for the nonprofit industry.

AccuFund CRM management software provides the benefits of cloud computing, a centralized location for all management, coordination of fundraising and marketing efforts, and up to ten (10) donated licenses.

Learn how one organization took advantage of the AccuFund CRM management capabilities and streamlined their processes while doubling revenues, in this Case Study.
