

United Neighborhood Centers

Success Story

Community Organization Taps AccuFund to Simplify Operations

UNITED NEIGHBORHOOD CENTERS OF NORTHEASTERN PENNSYLVANIA—The United Neighborhood Centers of Northeastern Pennsylvania (UNC) is a nonprofit agency dedicated to meeting the needs of local low-income families, seniors, and youth, while also empowering them to attain self-sufficiency.

To achieve this goal, UNC oversees six programmatic departments (Community Services, Child Care, Youth, Older Adults, Community Education & Revitalization, and Community Health) and a Housing/Community Development Corporation. Through this diverse programming, UNC uses an innovative wrap-around approach to address the emerging needs of the community it serves. With its beginnings dating back to 1923, UNC has become one of the largest, and longest operating, nonprofit organizations in the region.

“Too Much of a Good Thing” Was Causing Problems with Fundraising Management

To manage fundraising for its numerous programs, the United Neighborhood Centers of Northeastern Pennsylvania was using a well-known fundraising management software system for nonprofits that it found to be too complicated.

“That system had so many bells and whistles, it was frustrating,” explained Jill Eidenberg, director of development at UNC. “Getting a report together was such a challenge, and I never trusted it to be accurate. Since we were paying a huge amount of money each month for a system that was not easy or reliable, we started to question whether we should continue to use it.”

UNC also found that because the fundraising management system wasn’t compatible with its accounting system, donor gifts had to be entered twice — once in the fundraising management system and again in the accounting system — a time-consuming situation ripe for inconsistencies.

Integrating AccuFund with Salesforce Was the Simple Solution the Agency Needed

When UNC requested a recommendation from AccuFund, their trusted accounting system vendor since 2011, Salesforce, a cloud-based fundraising and constituent relationship management (CRM) solution, was suggested.

AccuFund Accounting Suite easily integrates with Salesforce. UNC is able to unite all the functions of its accounting system with Salesforce. By optimizing and customizing the core components of Salesforce into a reliable donor database, they are able to improve the organization's development, management and fundraising activities.

This now provides the organization with a complete nonprofit management solution and UNC eliminates the need for double entry on every donor transaction.

“Now, whenever I enter donations into Salesforce, it appears in the AccuFund Accounting Suite so the financial department can see activity immediately,” explains Eidenberg. “We’re no longer taking the extra step of re-entering gifts for accounting.”

UNC finds that the most significant benefit of Salesforce is its ease of developing reports. Each year, UNC has several signature fundraising events and appeal campaigns requiring specific reports for production and pledged dollars. For each campaign and event, Eidenberg needs to assemble a report for the UNC board of directors and leadership, highlighting fund allocation and revenue.

“With our previous fundraising management system, there were multiple tiers of reporting for every gift,” explained Eidenberg. It was a frustrating process. I would call the vendor for help and then get placed in a queue. Then, every time I spoke to someone, I would get a different answer, so I would continue to question the accuracy of my reports.”

“With Salesforce, it’s very simple,” continued Eidenberg. “I can quickly and easily get an accurate report on a particular campaign or event, with the accounting on it very complete and organized.”

“With multiple campaigns and events, I’m saving at least an hour or more per report, not to mention time being frustrated,” she said. “It has certainly enhanced productivity.” In closing, Eidenberg stated, “We’re thankful to have integrated this system into our daily operations.”

“Now, whenever I enter donations into Salesforce, it appears in the AccuFund Accounting Suite so the financial department can see activity immediately,” explains Eidenberg. “We’re no longer taking the extra step of re-entering gifts for accounting.”

Let's Get Started

AccuFund supports your mission with a full suite of financial management applications for nonprofit and government organizations. To learn more and arrange a demo, contact AccuFund at 877-872-2228 or sales@accufund.com or visit www.accufund.com.

AccuFund integrates with Salesforce for Nonprofits to meet the unique needs of an organization; improving development, management and fundraising activities.
